PROFILE SUMMARY

- As a budding Front-End Developer, I bring a passion for crafting engaging user experiences and a solid foundation in front-end technologies. Proficient in HTML, CSS, and JavaScript, I am dedicated to translating design concepts into interactive and visually appealing web applications. While I may lack formal work experience, I compensate with a keen eye for detail, a hunger for learning, and a commitment to staying updated with industry trends and best practices.
- My academic background, coupled with personal projects and self-directed learning, has equipped me with the skills necessary to thrive in a dynamic development environment. I excel at collaborating with cross-functional teams to understand project requirements and deliver solutions that prioritize usability and performance.
- With a mindset geared towards continuous improvement, I eagerly embrace challenges and seize opportunities to expand my knowledge and expertise. I am adept at utilizing frameworks and libraries such as Bootstrap, React, and Angular to streamline development processes and enhance user interactivity.
- Driven by a genuine enthusiasm for web development, I am poised to contribute effectively to projects while further honing my skills and capabilities in the ever-evolving landscape of front-end development. I am seeking opportunities where I can leverage my technical acumen and creativity to make meaningful contributions and grow as a Front-End Developer.

PROFESSIONAL SKILLS

- **HTML5 & CSS3:** Proficient in creating structured, semantically meaningful HTML documents and styling them using CSS for consistent and visually appealing layouts.Product strategy and roadmap;
- **JavaScript (ES6+):** Solid understanding of core JavaScript concepts such as variables, data types, loops, and functions. Familiarity with modern JavaScript features including arrow functions, destructuring, and async/await.
- **Responsive Design:** Ability to develop responsive web applications that adapt seamlessly to various screen sizes and devices using media queries and flexible layout techniques.
- **Front-End Frameworks/libraries:** Familiarity with popular front-end frameworks and libraries such as Bootstrap, React.js, and Angular. Capable of building interactive user interfaces and single-page applications (SPAs) using these tools.
- **Version Control Systems:** Basic understanding of Git for tracking changes in code, collaborating with team members, and managing project versions effectively.
- **Cross-Browser Compatibility:** Knowledge of testing and debugging techniques to ensure compatibility and consistent performance across different web browsers.
- **Debugging & Problem Solving:** Ability to identify and resolve front-end issues efficiently using browser developer tools and debugging techniques.
- **User Experience (UX) Design:** Understanding of UX principles and best practices to create intuitive and user-friendly interfaces. Able to incorporate user feedback and iterate designs for optimal user experience.
- **Basic Design Principles:** Understanding of fundamental design principles such as typography, color theory, and layout, enabling the creation of visually appealing and user-centric web interfaces.
- **Time Management & Prioritization:** Strong organizational skills to manage tasks effectively, prioritize work based on project requirements, and meet deadlines in a fast-paced development environment.
- **Continuous Learning:** Commitment to staying updated with the latest trends, technologies, and best practices in front-end development through online resources, tutorials, and community engagement.

HARD SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Frameworks/Libraries:** Bootstrap, React.js(ts), Angular
- **Developer Tools:** Chrome Developer Tools, Visual Studio Code, Git/GitHub
- **Responsive Design:** Media Queries, Flexbox, CSS Grid
- **Version Control Systems:** Git
- **Front-End Testing:** Jest
- **Cross-Browser Compatibility:** BrowserStack, CrossBrowserTesting
- **Web Performance Optimization:** Minification, Image Compression, Lazy Loading
- **Debugging Tools:** Chrome DevTools, Firefox Developer Tools
- **APIs:** Fetch API, Axios

These hard skills equip a front-end developer with the necessary technical proficiency to build and maintain modern web applications effectively.

Feb, 2023 - Feb, 2024 | Front-End Development / Technical Diploma

IT Step, Ukraine

<u>Diploma</u>

Sep, 2021 - May, 2025 | Computer Science / Bachelor

National Aviation University, Ukraine
